

Literacy at Oakhurst

This year (Sept 2018) we are launching a new programme called Read Write Inc. It is a proven synthetic phonics programme that ensures early success in reading, writing and spelling. It teaches children to read accurately and fluently with good comprehension. They also learn to form each letter, spell correctly and compose their ideas step by step.

It uses thought out resources with story books that are matched to their phonic knowledge. Additionally, the children are able to embed their learning at home by re reading the story they have read in class. This aids their fluency and enables parents more time to question their child.

In addition to Read Write Inc, the children also have a daily writing session that allows them to be creative and explore different text types. They can build upon their skills taught in the Read Write Inc sessions. Where possible, links are made to the children's current topic.
